Hamburg, 04.02.2016		<small>Im Auftrag for the Federal Maritime and Hydrographic Agency</small>  (Doreen Thoma)
		

SARASOTA, Fla., February 4, 2016 – Dukane Seacom (a HEICO Company) received approval from Bundesamt für Seeschifffahrt und Hydrographie (BSH) [Federal Maritime & Hydrographic Agency] for the DKM502/90 Marine Underwater Beacon.

The DKM502/90 Underwater Locator Beacon is the industry leading marine voyage recorder beacon now certified to 90 day underwater operation. Dukane Seacom is the world's largest supplier of ULB devices to the commercial and military aviation, and marine markets.

The new 90 Day operational requirements went into effect in 2015. These ULBs have been extensively tested to verify compliance to all primary cell lithium battery safety requirements including FAA and EASA approvals. The DKM502/90 is specifically designed to withstand the corrosive marine environment providing years of maintenance free operation.

"Obtaining the BSH approval validates our confidence in the DKM502/90 design and reliability," said Anish Patel, President of Dukane Seacom. "We are pleased to offer maritime voyage recorder manufacturers and fleets this improved 90-day operational capability."

With over 40 years of industry experience, Dukane Seacom has the largest install base of underwater locator beacons (commercial, military, business jets, rotorcraft, and maritime) with over 100,000 ULB units installed on aircraft and maritime applications.

About Dukane Seacom

Sarasota, FL-based Dukane Seacom Inc. is the world's leading supplier of underwater acoustic locator beacons for the aviation and marine markets. Dukane Seacom beacons are installed on the global commercial and business jet aircraft fleets, military fixed wing and rotary aircraft, as well as maritime and specialty underwater applications.

About HEICO

HEICO Corporation is engaged primarily in certain niche segments of the aviation, defense, space, medical, telecommunications and electronics industries through its Hollywood, Florida-based Flight Support Group and its Miami, Florida-based Electronic Technologies Group. HEICO's customers include a majority of the world's airlines and overhaul shops as well as numerous defense and space contractors and military agencies worldwide, in addition to medical, telecommunications and electronics equipment manufacturers. For more information about HEICO, please visit our website at <http://www.heico.com>.

The Company has two classes of common stock traded on the NYSE. Both classes, the Class A Common Stock (HEI.A) and the Common Stock (HEI), are virtually identical in all economic respects. The only difference between the share classes is the voting rights. The Class A Common Stock (HEI.A) receives 1/10 vote per share and the Common Stock (HEI) receives one vote per share. The stock symbols for HEICO's two classes of common stock on most web sites are HEI.A and HEI. However, some web sites change HEICO's Class A Common Stock symbol (HEI.A) to HEI/A or HEIa.
