RADIANT POWER CORP ANNOUNCES DUKANE SEACOM INTEGRATION INTO SARASOTA, FL FACILITY

The Dukane Seacom subsidiary of HEICO will be integrated into Radiant Power Corp, a HEICO company, located in Sarasota, FL

SARASOTA, FL and St. Charles, IL – January 7, 2013, Radiant Power Corp, a HEICO company (NYSE: HEI.A and HEI) announced that HEICO's Dukane Seacom business will be integrated into the Radiant Power Corp business located in Sarasota, FL.

Dukane Seacom is the world's leading supplier of underwater acoustic locator beacons for the aviation and marine markets. Dukane Seacom beacons are installed on the global commercial aircraft fleet, military fixed wing and rotary aircraft, as well as maritime and specialty underwater applications.

HEICO acquired the St. Charles, IL based Dukane Seacom business in 2009. The current Radiant Power facility has adequate manufacturing and engineering space available to house the Dukane Seacom product lines. An expansion will be necessary to accommodate the unique testing requirements for ultrasonic locator beacons. The expansion, move, and integration will be completed before the end of 2013.

The Dukane Seacom product line is currently supported by approximately 34 people, some of whom will be invited to move with the business to Sarasota.

Anish V. Patel, President of Radiant Power Corp, stated, "The integration of the Dukane Seacom business into Radiant Power will expand Radiant Power's sensors and instruments product offerings. There are significant assembly process synergies as well as common customers between Radiant Power and Seacom. Dukane Seacom has an extremely dedicated team and I want to thank them for their years of support to the company."

Sarasota, FL-based Radiant Power Corp is a leading designer and manufacturer of emergency power supplies, power management systems, passenger comfort electronics, and sensors and instruments in the aerospace market for over 30 years. Radiant Power's products are installed on several models of commercial, business, and general aviation aircraft, as well as military fixed wing and rotorcraft.

HEICO Corporation is engaged primarily in certain niche segments of the aviation, defense, space, medical, telecommunication and electronic industries through its Hollywood, FL-based Flight Support Group and its Miami, FL-based Electronic Technologies Group. HEICO's customers include a majority of the world's airlines and overhaul shops as well as numerous defense and space contractors and military agencies worldwide in addition to medical,

telecommunication and electronic equipment manufacturers. For more information about HEICO, please visit our web site at <http://www.heico.com>.
